

Contract for the First Baptist Church of Otsego Community Garden

Community Garden Rules:

1. Each person is responsible for his/her own plot. They will do all the planting, weeding, watering and harvesting from their own plot. No one may harvest from another's plot without permission.
2. No illegal plants are to be grown. Our neighbors, the Otsego Police Department will gladly help us enforce this rule.
3. Participants must grow "space saving" plants that will not vine or run into neighboring plots.
4. No chemical pesticides of any kind will be allowed in the community garden.
5. If the plot is not maintained, and has no evidence of being taken care of, the participant will be contacted and given a chance to maintain their plot. If they choose to abandon it, it will be assigned to another person/family.

Any vandalism will be punished by the vandal restoring everything that is damaged and putting in additional hours of weeding/maintaining the community garden, determined by the extent of the vandalism.

I, _____, agree to abide by these rules as I participate in the community garden. If I cannot maintain my plot, I will contact the organizers and allow another person or family to take my plot.

Date: _____
